

- 
1. Select the base unit of the metric system for length.
- A) Liter      B) Meter  
C) Gram      D) Kilogram  
E) Kilometer
2. Select the base unit of the metric system for volume.
- A) Liter      B) Meter  
C) Gram      D) Kilogram  
E) Kilometer
3. Select the base unit of the metric system for mass.
- A) Liter      B) Meter  
C) Gram      D) Kilogram  
E) Kilometer
4. Metric units have prefixes that represent multiples of the base. What is the prefix for 1000.0 ?
- A) Kilo      B) Milli  
C) Centi      D) Hecto  
E) Mega
5. Metric units have prefixes that represent multiples of the base. What is the prefix for 0.000 001 ?
- A) Kilo      B) Milli  
C) Deci      D) Mega  
E) Micro
6. Metric units have prefixes that represent multiples of the base. What is the prefix for 0.01 ?
- A) Kilo      B) Milli  
C) Centi      D) Hecto  
E) Micro
7. Convert the units 2.7 g into mg.
- A) 0.027      B) 27  
C) 2700      D) 0.0027  
E) 27,000,000
8. Convert the units 0.21 km to cm.
- A) 0.21      B) 21,000  
C) 21      D) 0.0000021  
E) 21,000,000
9. Convert the units 12.0 mL to L.
- A) 0.12      B) 12,000  
C) 12,000,000      D) 0.012  
E) 0.00012
10. Convert the units 55.2 ks to ms.
- A) 5.52      B) 0.552  
C) 0.000 0055 2      D) 5,520  
E) 55,200,000
